"When I started training with Dana, I weighed 241 lbs and was in the worst shape of my life. In less than a year, I got down to 175 lbs. and have a stronger core in my early 60's than I've ever had. I continue to SHIFT weekly with my wife – an ex-Broadway dancer and a black belt – who told me it's the best workout she's ever done. It's no exaggeration to say that Dana has changed my life. And probably extended it!"

J.K. Simmons
Academy Award Winning Actor

"Dana's extensive knowledge of fitness and food is unparalleled, but what inspires me the most is her passion . . . It's contagious! With her SHIFT classes she quickly got me back on track after the birth of my first son. I have long been, and will continue to be, a Dana Perri devotee."

Sarah Lancaster
Actress

"I have been exercising consistently for more than 20 years. I thought I was serious with my approach and commitment and believed I was eating properly. That all changed when I began to SHIFT. I will be 73 years old in June, and I know I'm in the best shape that I have ever been in, which I attribute to Dana Perri. She guides you, makes YOU want to be better, and most importantly, she cares. The benefits and rewards await you. All you have to do is 'JUST SHOW UP!' "

Peter S. Palmer
Entertainment Business Executive

"From the first class I took with Dana, I was completely hooked. She is an amazing trainer and instructor, and is truly unique because of her positive energy and constant encouragement. Her workouts are always really hard and intense, but she makes them fun using her talent and creativity to introduce new exercises all the time so you never know what's coming next. SHIFT has totally transformed my body and is more challenging, effective and fun than any yoga, pilates or barre class in town. Dana is absolutely the best there is in fitness!"
